1 and 2

3.

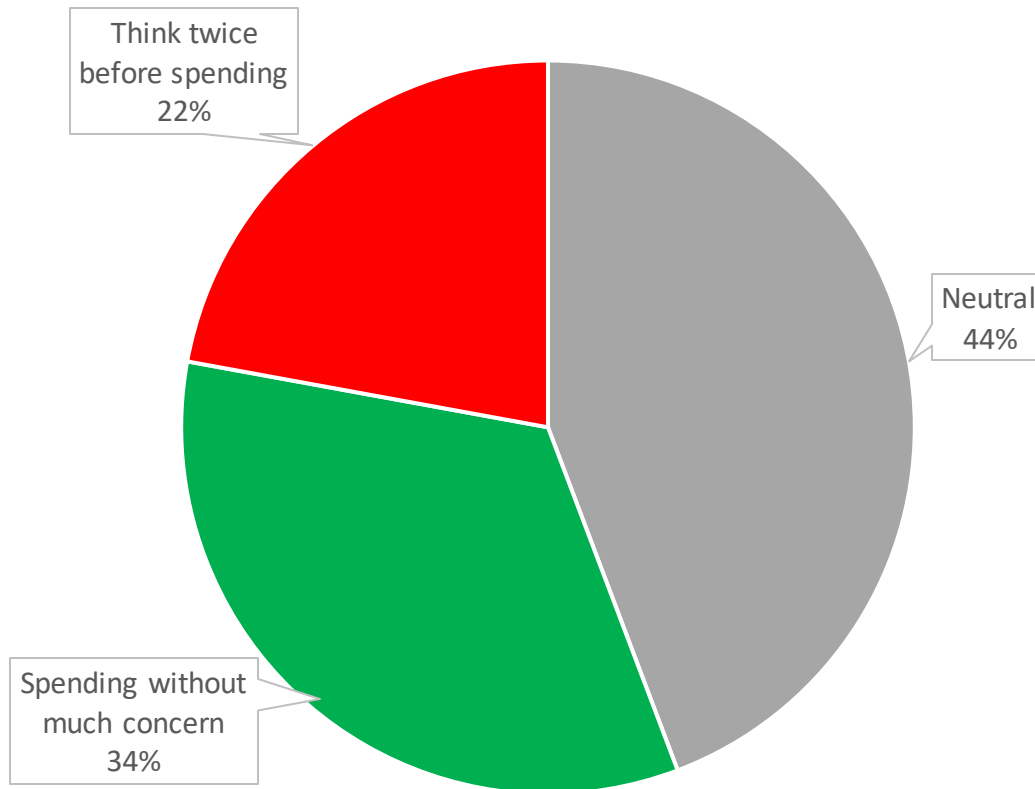

4.

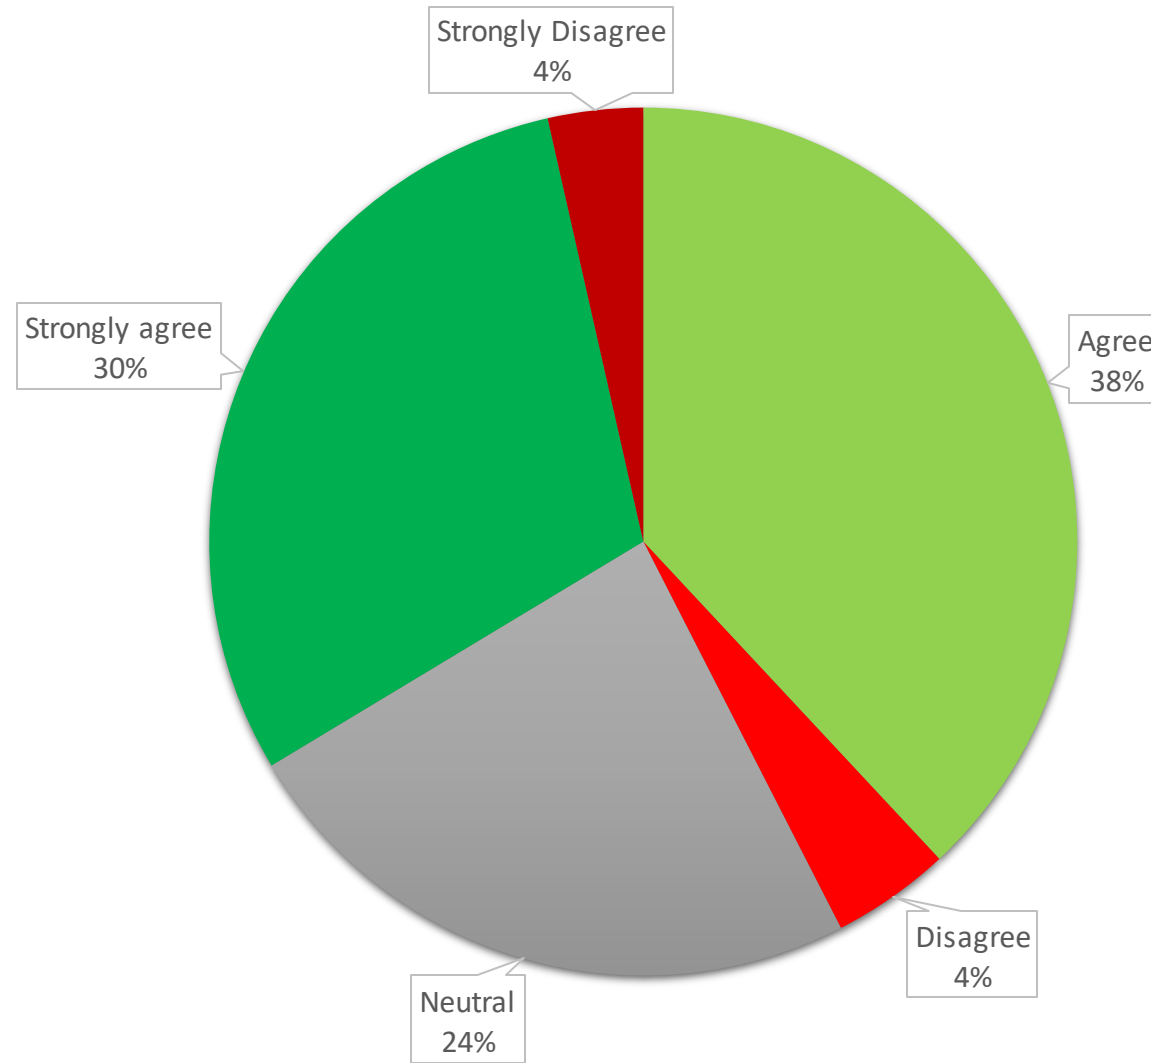

- 56% improved their house-hold assets or physical condition of existing house.

5.

How has your attitude towards consumption (spending money) change?

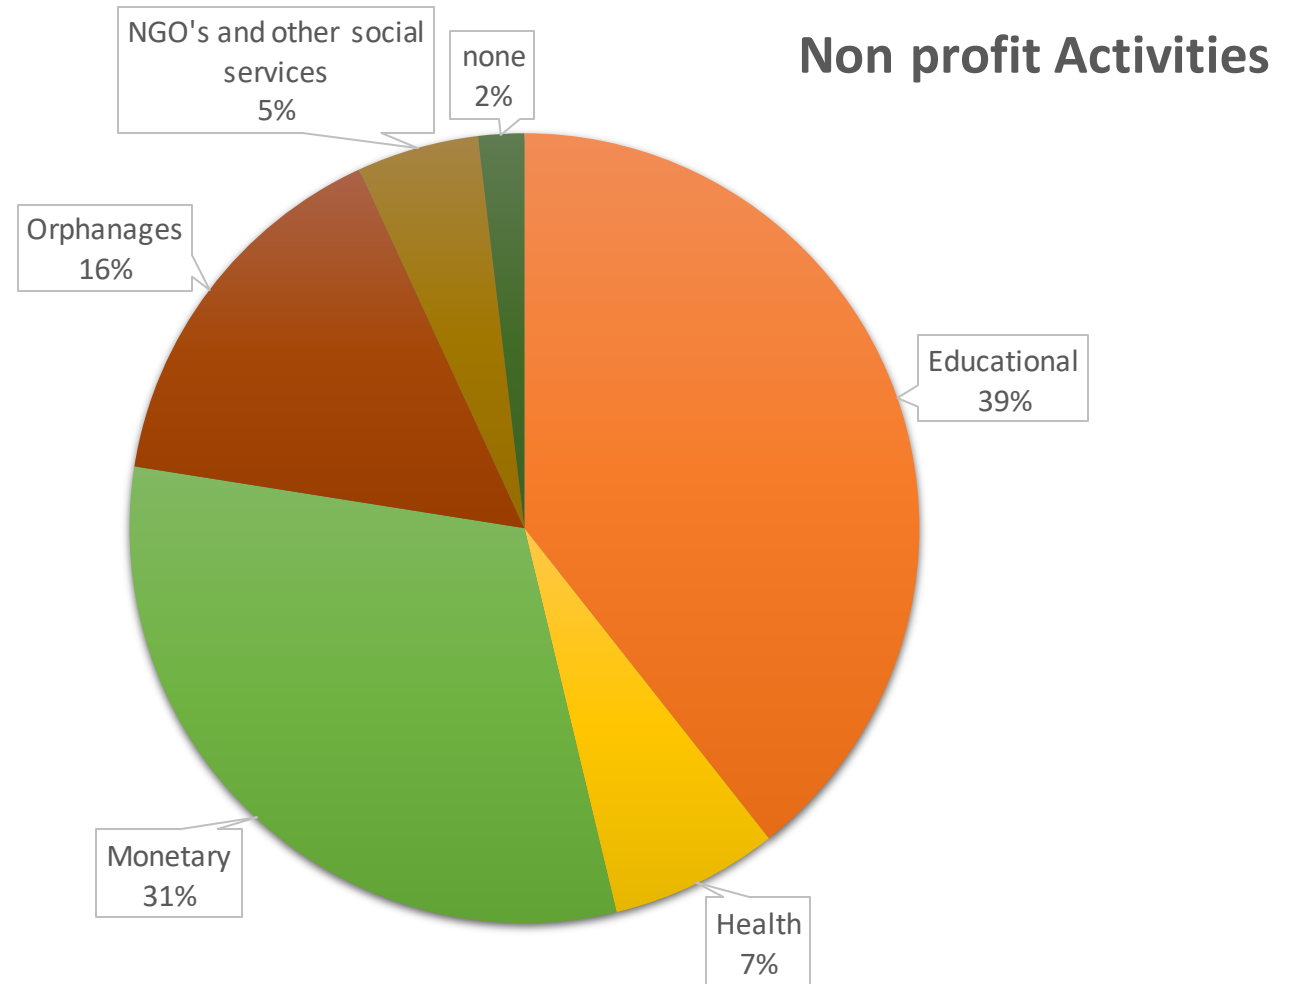

6.

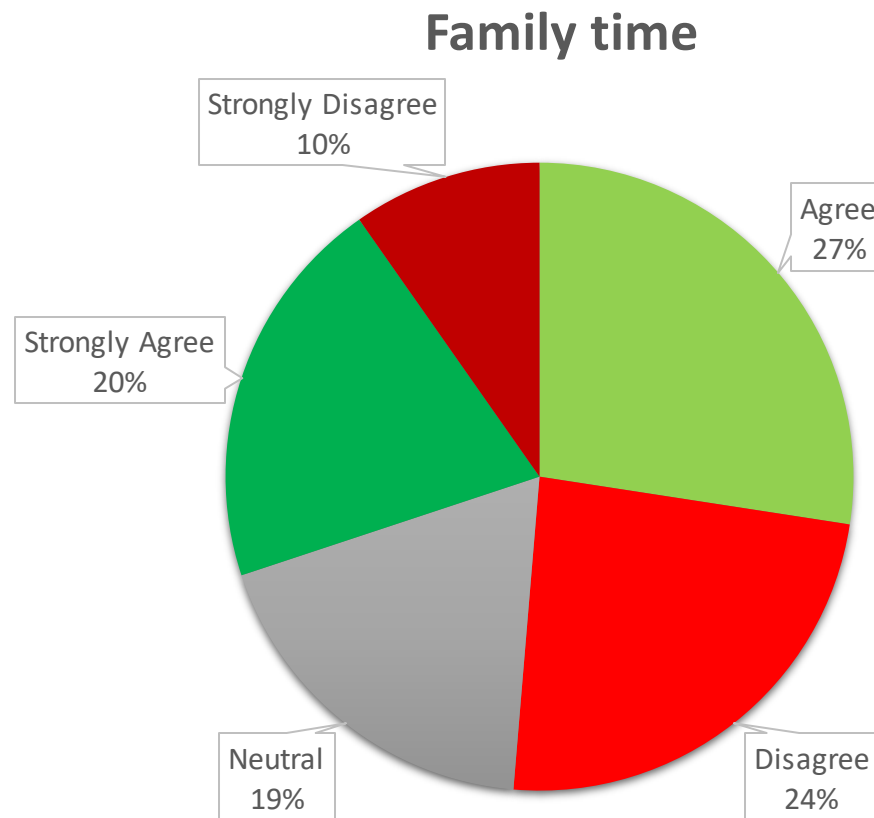

# personal activities and recreation:

1.Any kind of non-profit activities towards society you did/ are doing/ wish to do?

2.

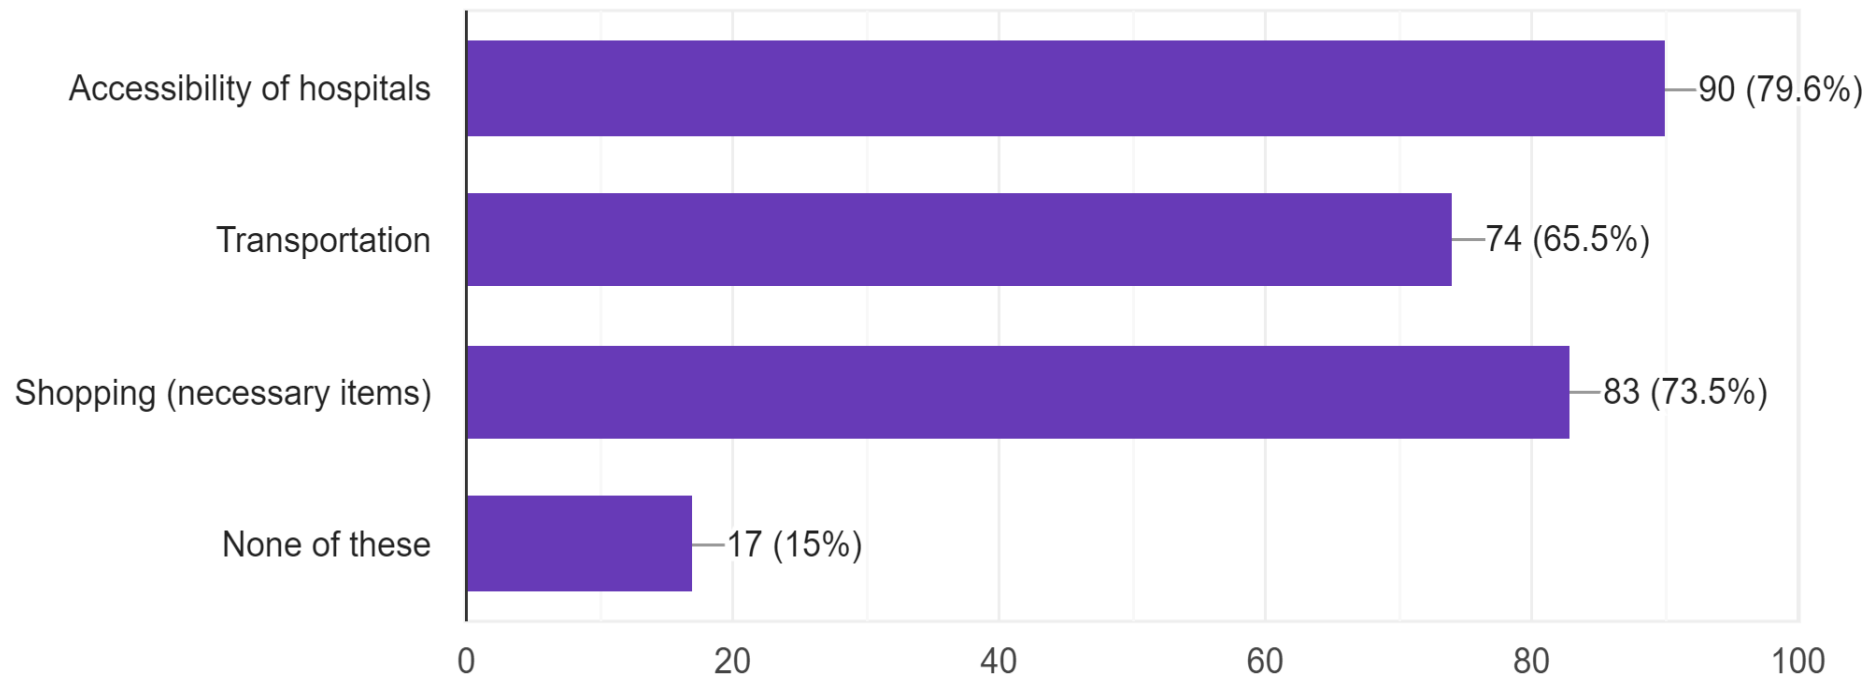

# Environment:

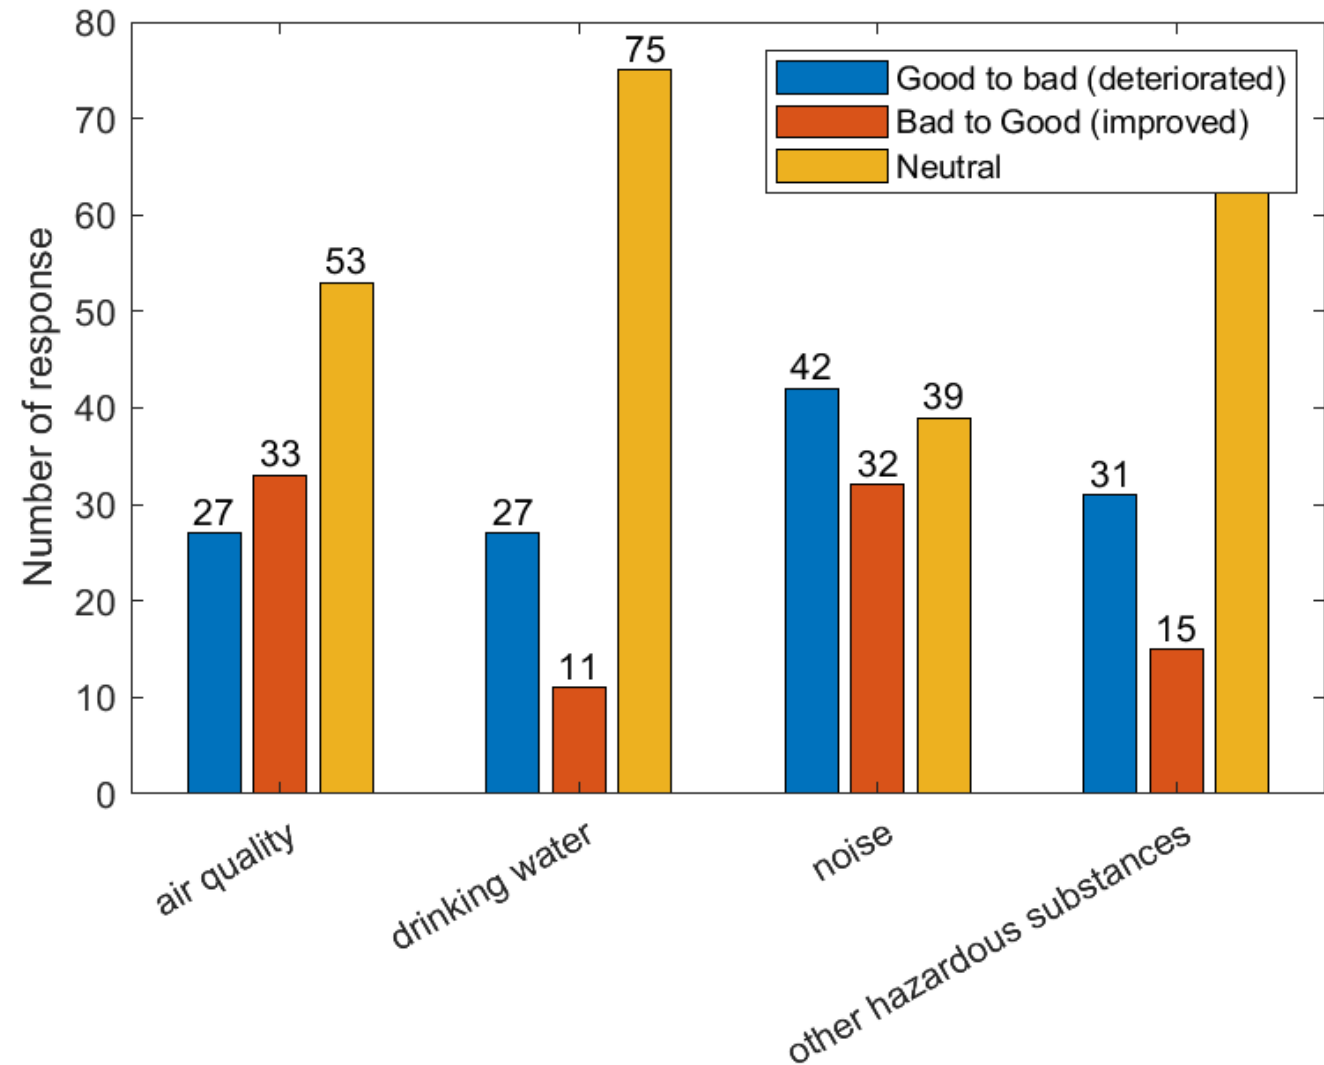

1.

Are you satisfied with the location? (Tick the facilities that are easily accessible) (Multiple choice)

113 responses

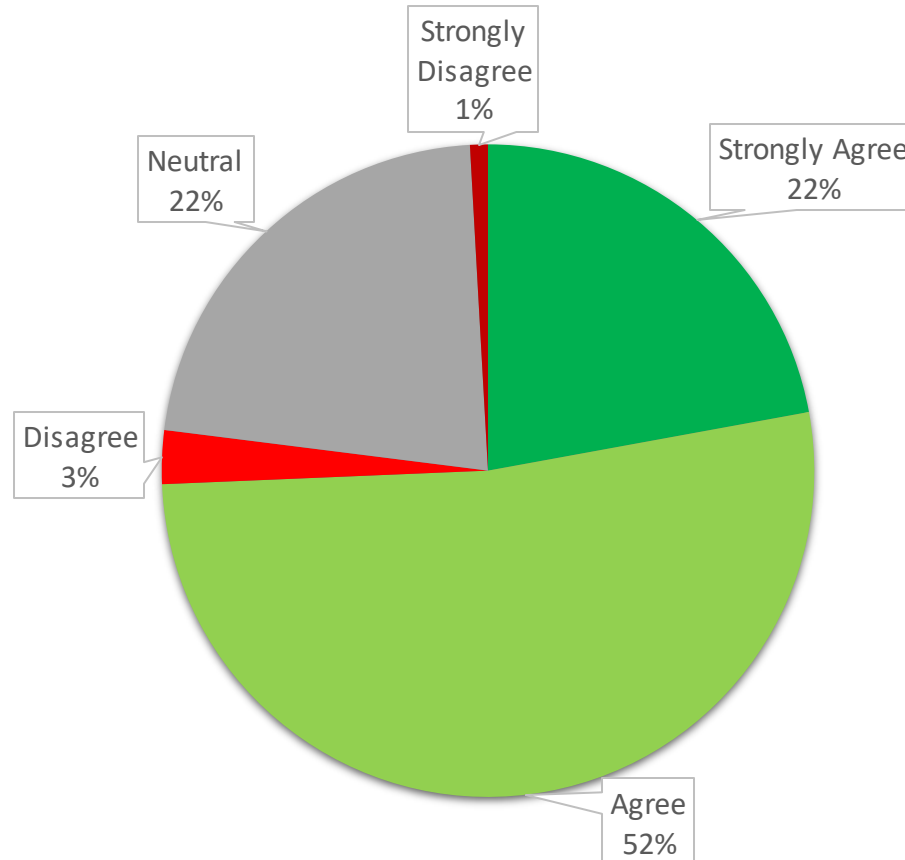

2. In which of the following did you experience a considerable change after getting this job? (at home or workplace)

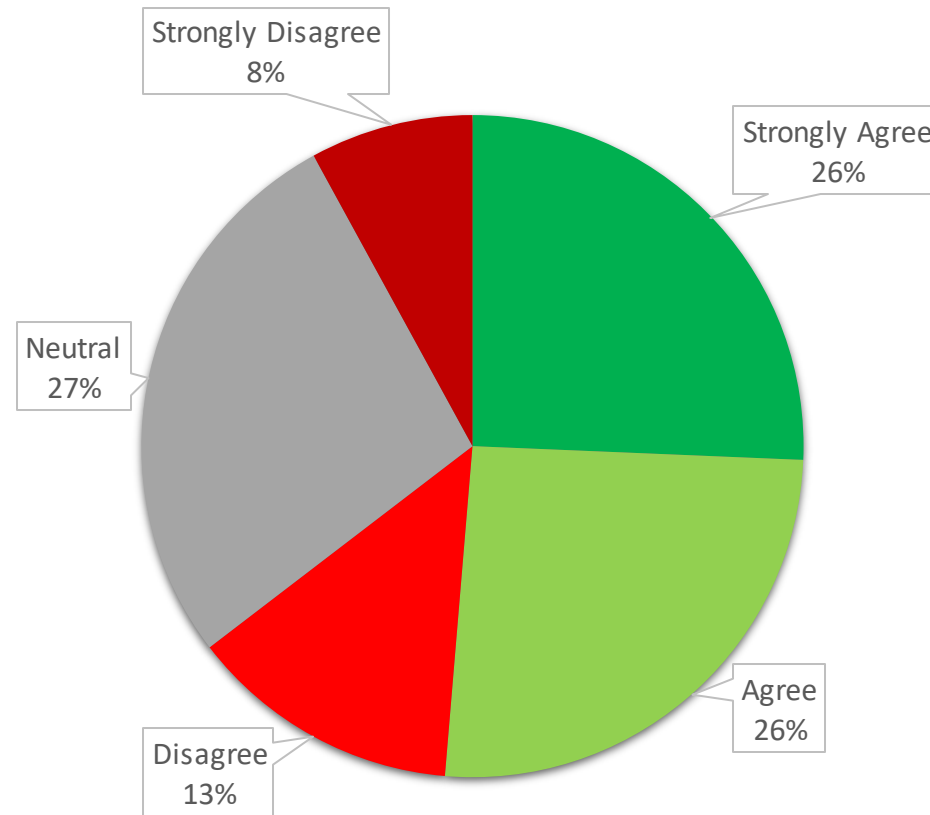

## Social connections and relationships: 3

The job has increased the status of my family in society.

4

The relationship with my peers has improved through this job.

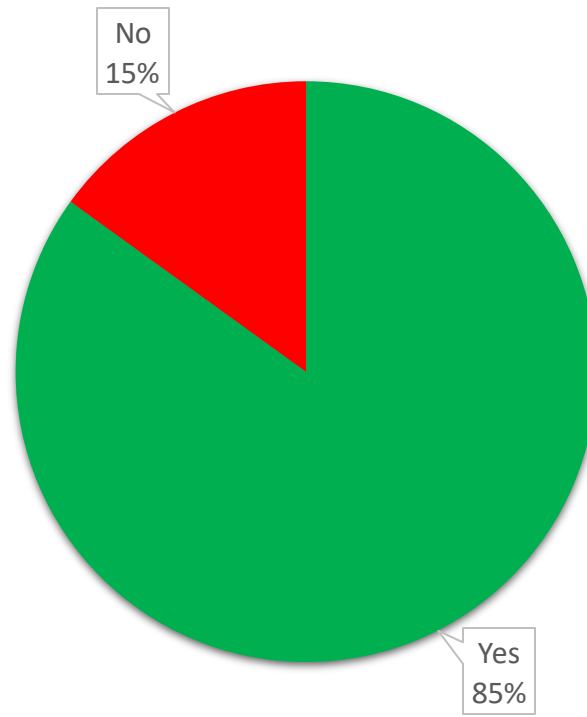

# Conclusion on social connections and relationships:

- Family relationship with relatives and society **increase** after getting job of the individual.
- Relationship with friends and peers is somewhat **neutral** even after getting job.

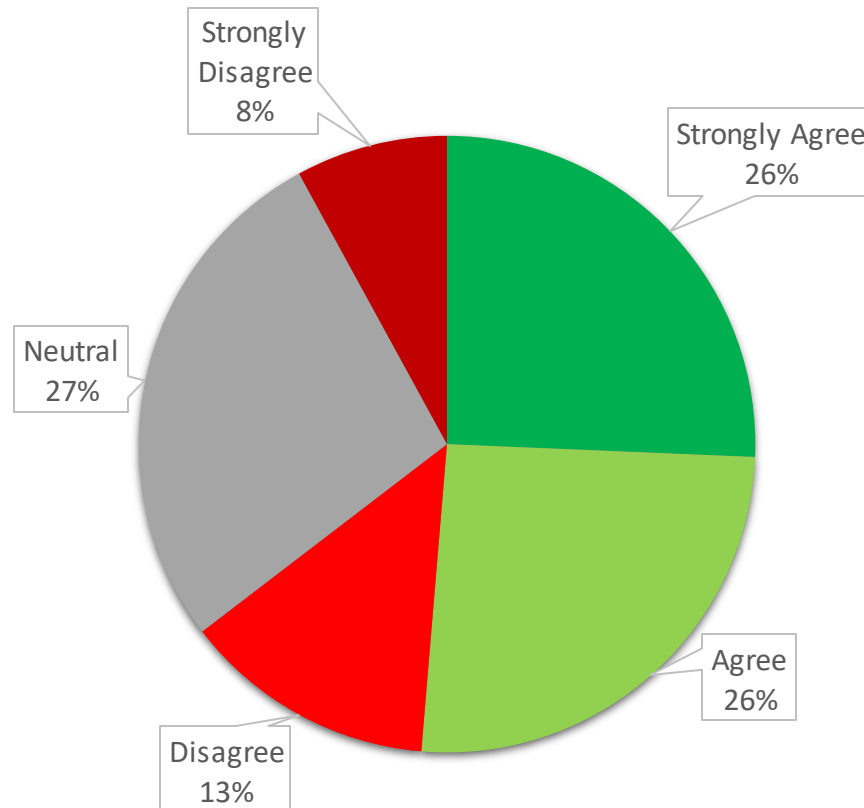

# Health : 1

I am able to take care of the health needs of my family and myself without any difficulty because of this job.

## Education : 1

Do you think the job impacted your decision in opting for higher education?/  
Do you think working in the job motivated you to go for higher education?

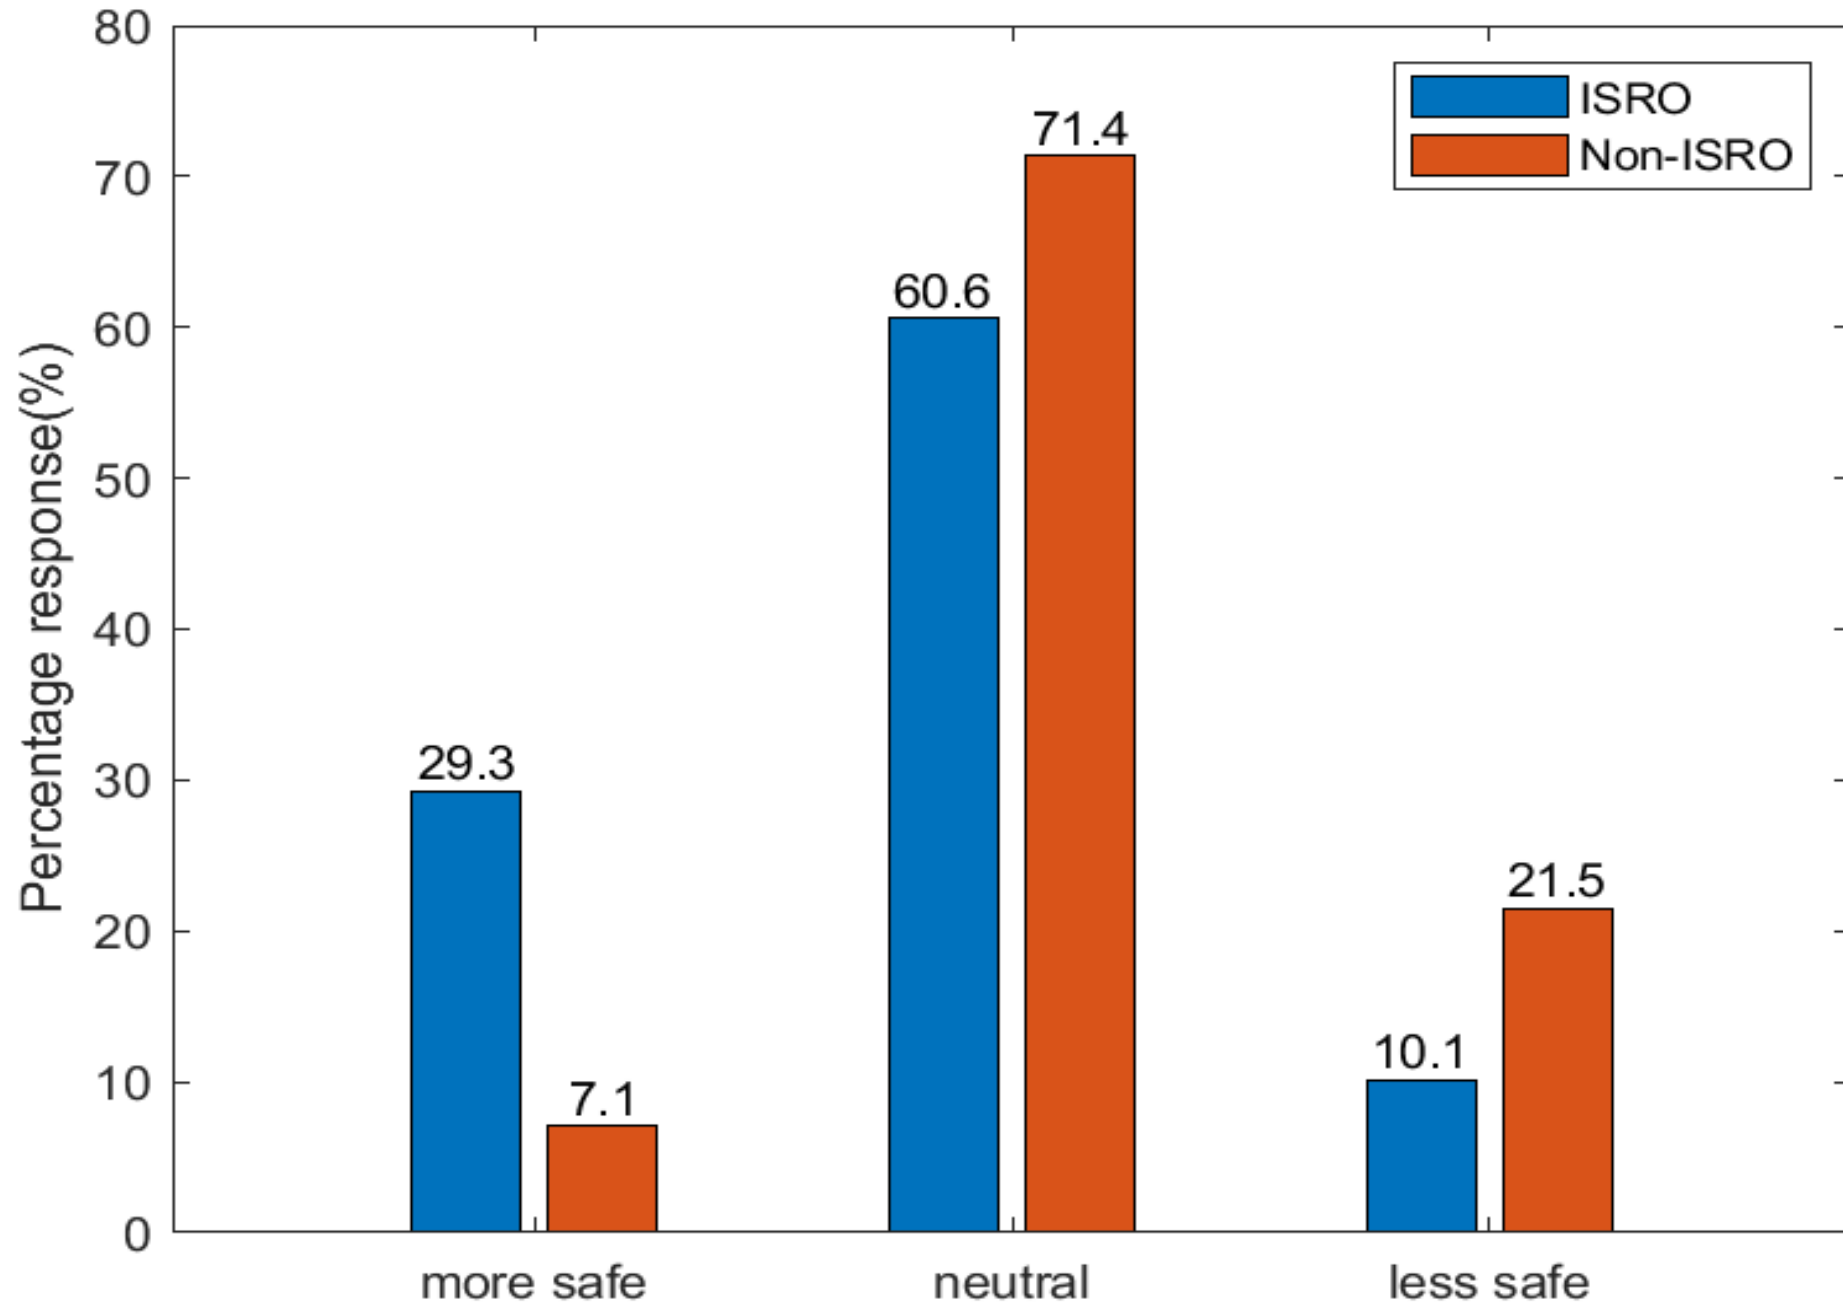

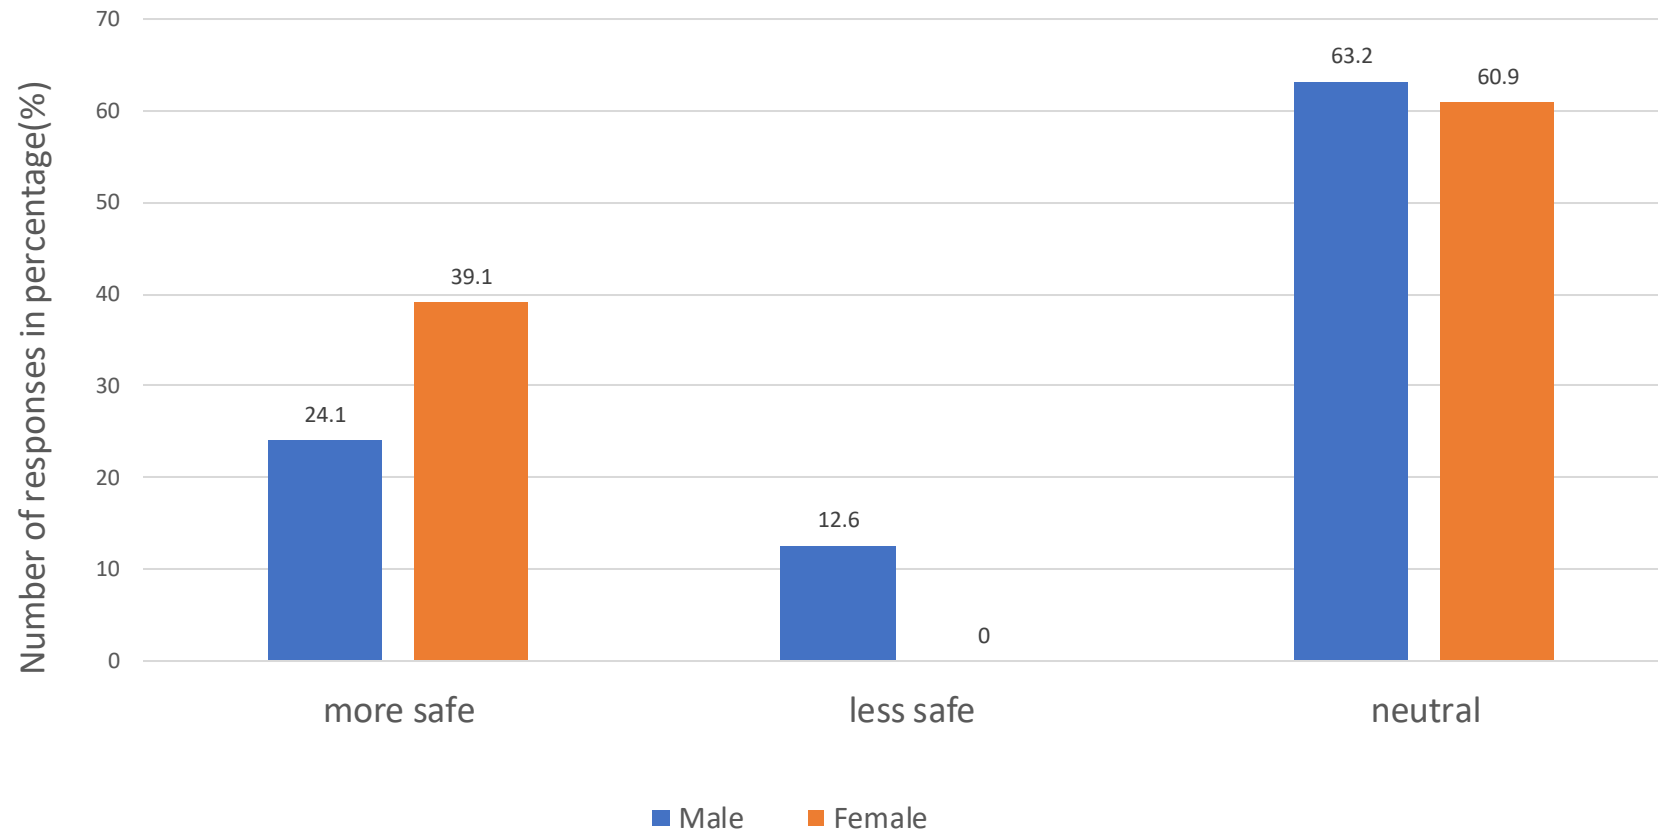

# Conclusion on Education:

- 7 out of 9 people who agree that job motivated them to go for higher education are single, we can make the inference that people who are not married have more freedom for higher education.
- Percentage of male and female who agree are nearly same, so gender does not make a good difference for opting higher education.

Insecurity: 1  
After getting job,  
how safe do you  
feel compared to  
your homeplace?

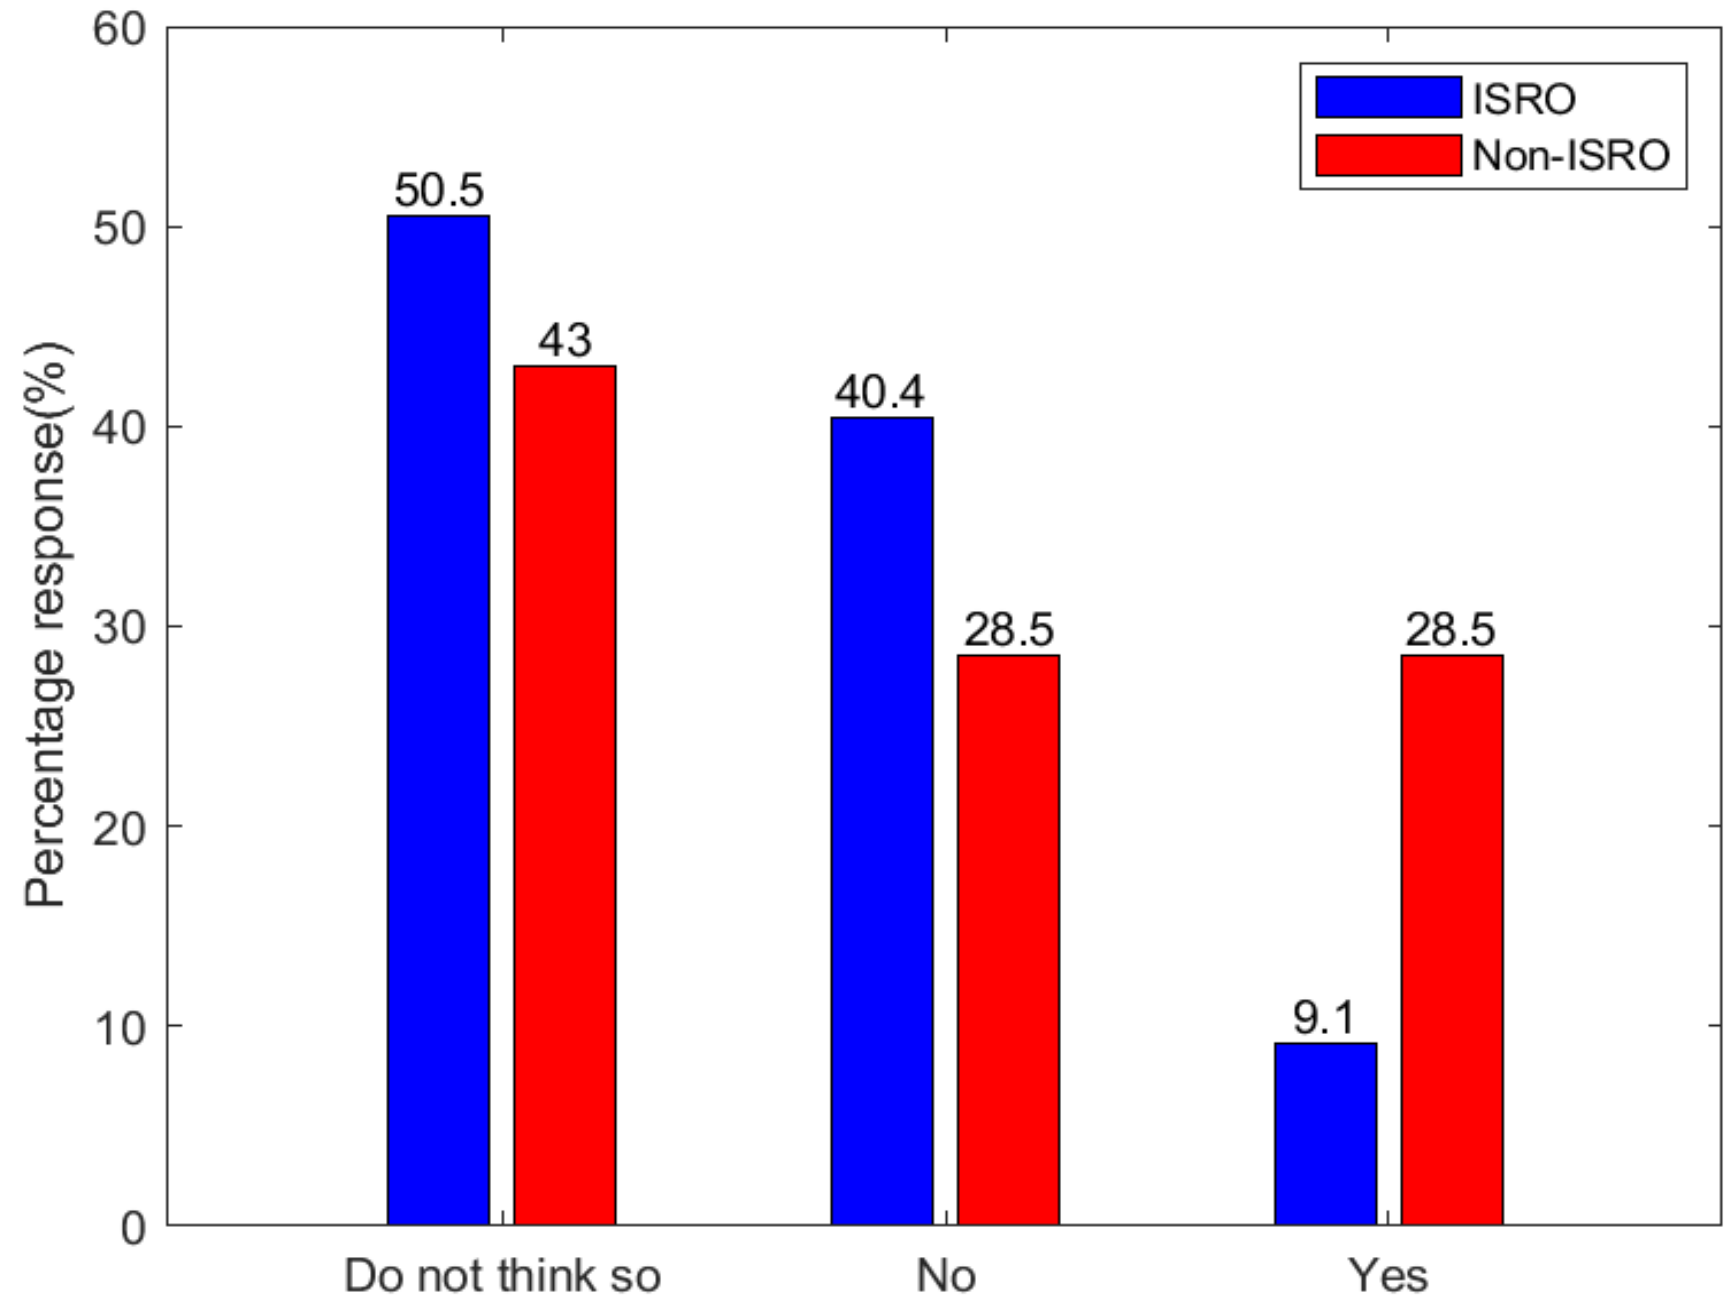

# Safe question ,male female comparison

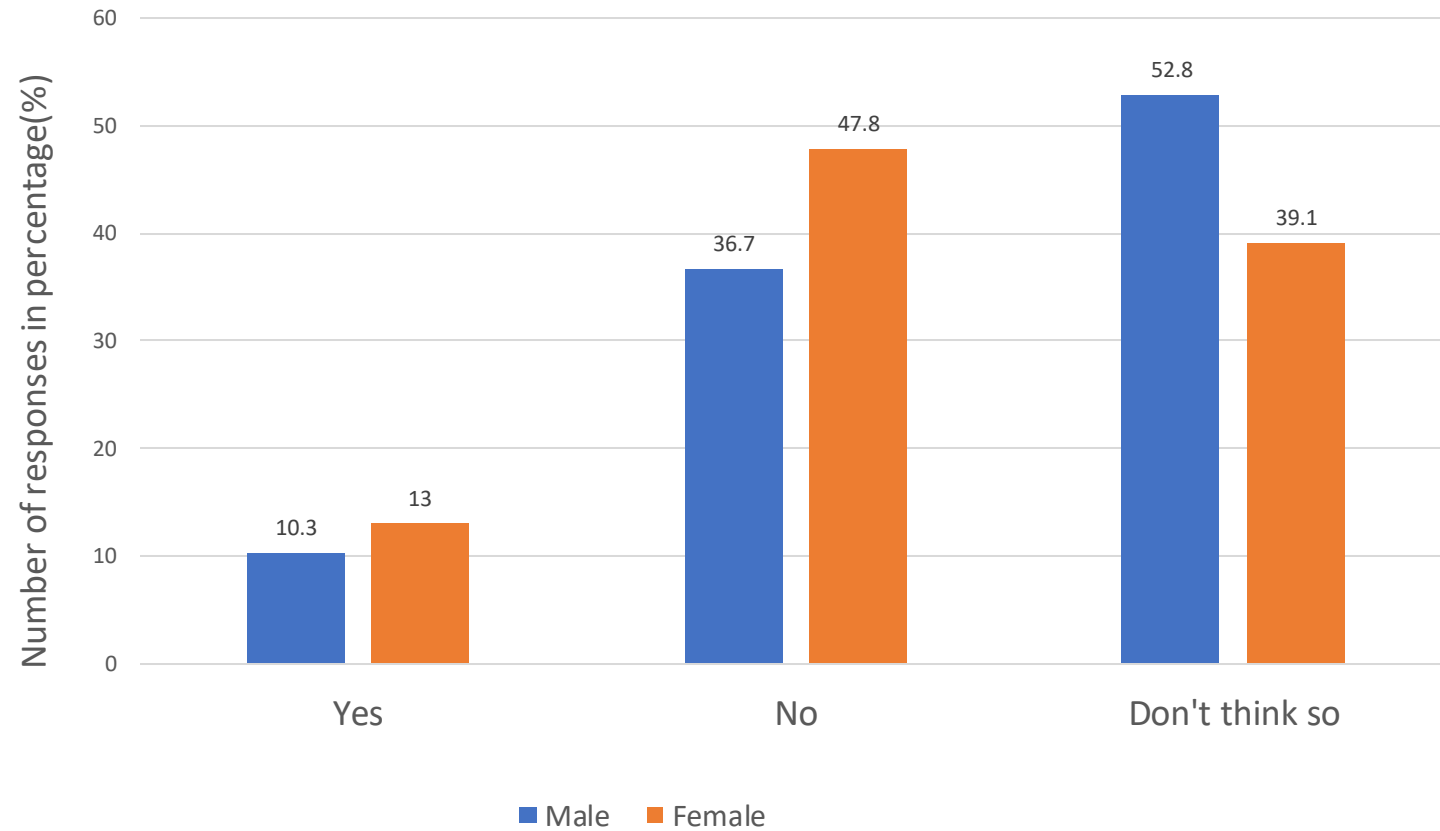

2.

Did chances to  
fall victim to  
crime increase  
after getting  
this job?

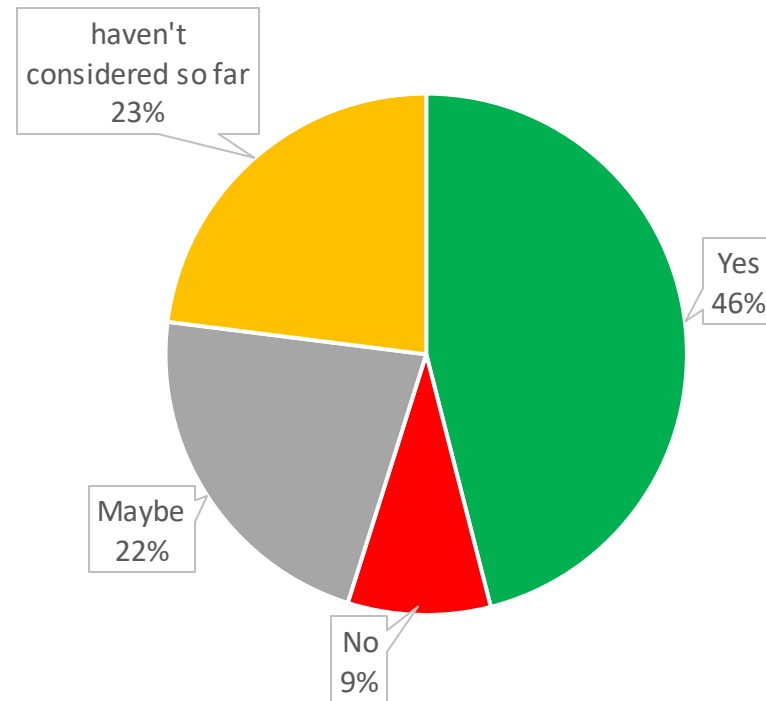

# Fall victim to crime q, male female comparison

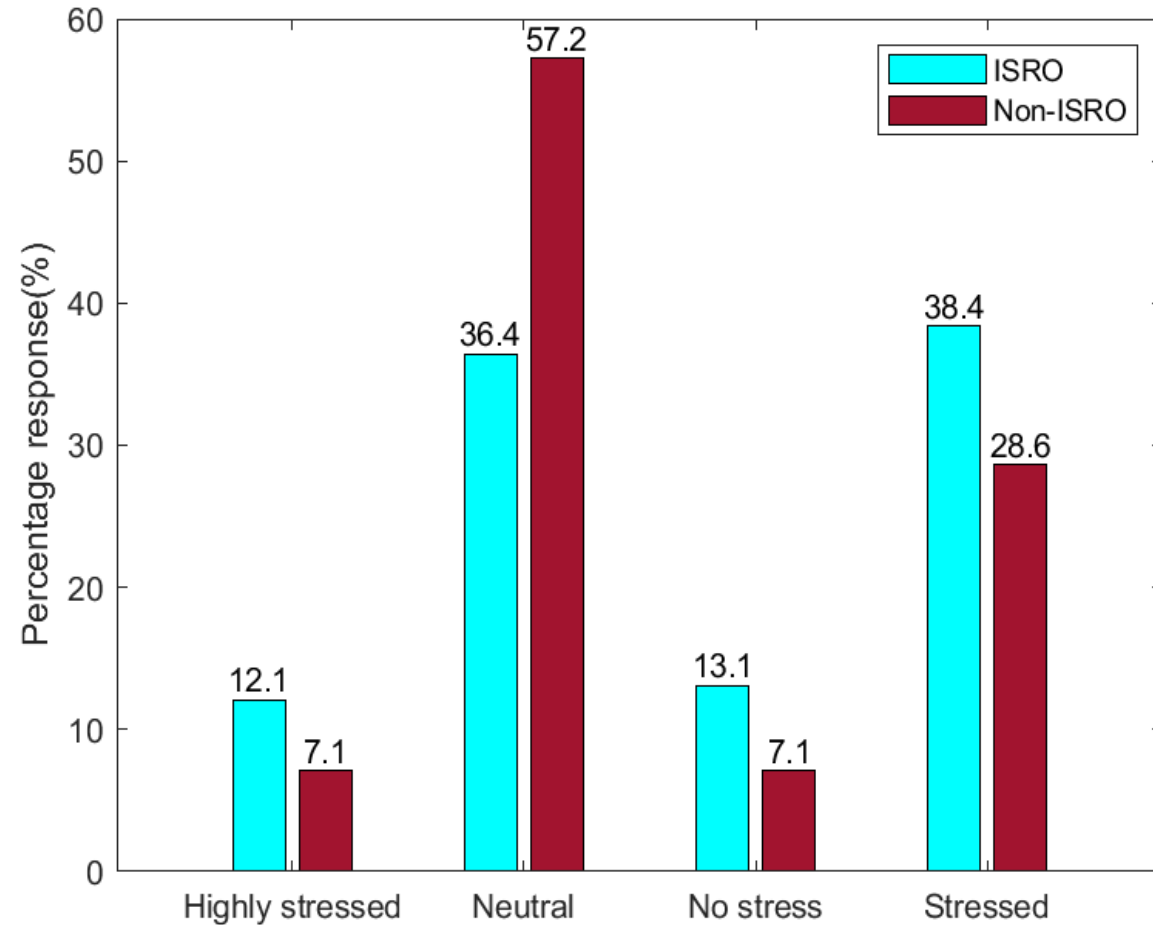

4

Do you think you will be secure in old age due to this job?

5.  
Do you feel  
stressed  
after getting  
this job?  
(workload,  
working  
conditions)

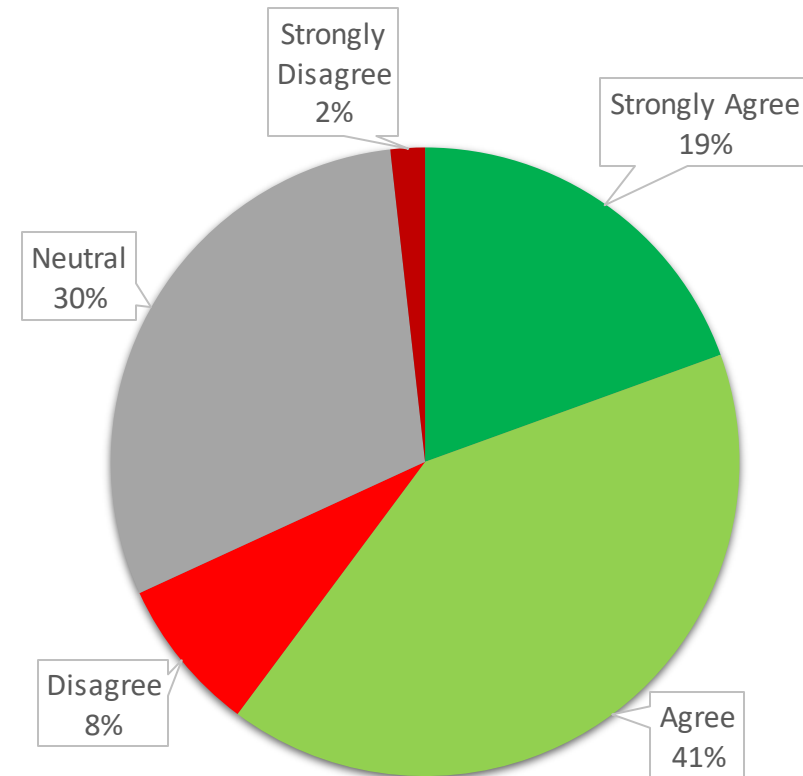

# Political voice and governance: 1

Your say/opinion in the society-related issues faced by the people or on decision making, is being valued due to this job.

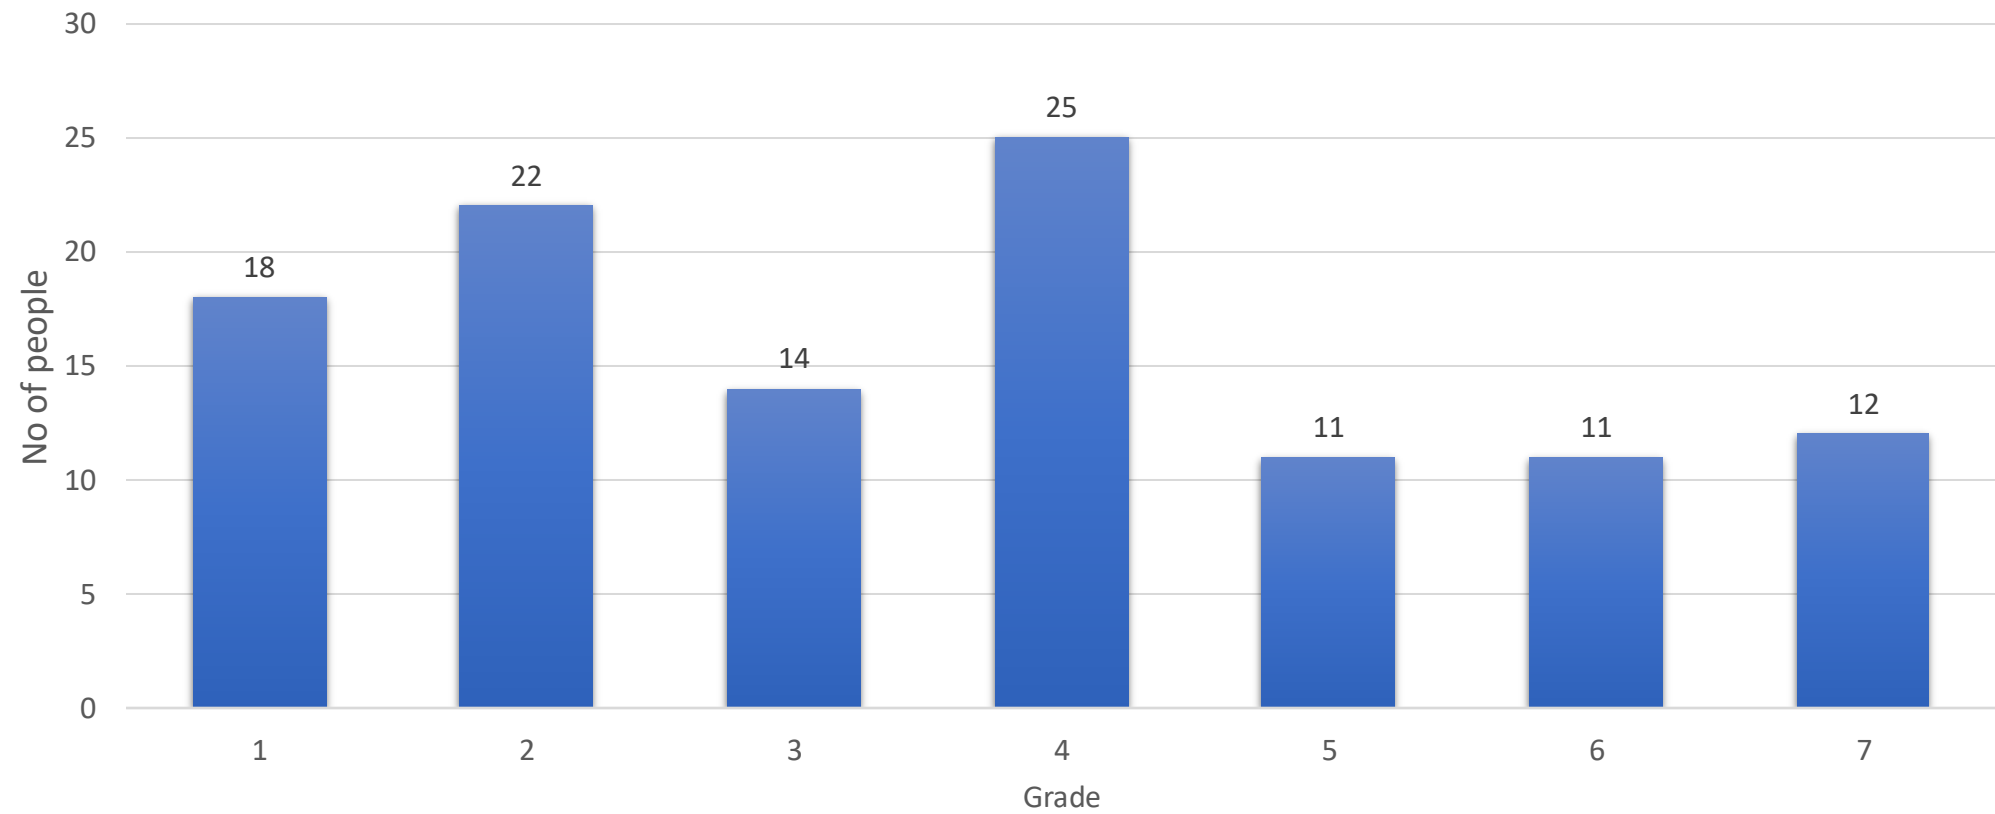

## Conclusion:

We can conclude that after getting job individuals' opinion's importance in society increase.
